## ON THE PITCH

Being a three time Champion, team success has always been the primary focus for Filip alongside his individual accomplishments.

In 2005-2006, Filip has won the Austrian double with *FK Austria Vienna* and has been chosen as the Austrian All-Star Game MVP.

He has also been the Slovakian Champion twice, with two separate franchises, the winner of the Slovakian cup placing him in the *UEFA Champions league* and Europa cup.

Filip was named twice as Golden Boot winner in '10-'11 and '04-'05 scoring 22 goals each season.

He represented the Nation at all *National Team* levels from U14 to A Team, scoring 7 goals in 15 games.

When asked about regrets, finishing second with the *Glasgow Rangers* often reminds Filip that he could have joined an elite club of a few football players whom have been Champions in three different premier leagues.

## OFF THE PITCH

Besides being a role model to younger generations with his on and off the pitch excellence, Filip always seems to provide the right answers to reporters and/or any press related issues. He is by far the most vocal athlete in Slovakian history, generating sustainable relationships with sponsors, media and his fan base.

Out of his own initiative Filip supports annually a number of sports related charities. Philanthropy (human friendly) activities represent his core values most accurately and he hopes to spread such value systems in all of his commercial and non-commercial engagements..

## COACHING EXPERIENCE:

The decision to choose home country and the last professional club Filip played for, *SK Slovan*, was influenced by the opportunity to lead two age groups (U10/U12) as their Coach. The experience has not only been a reflection of Filip's desire to once lead younger generations on a football pitch, but it also proved to be a success story winning the regional cup with U12 and finishing 2nd with U10.

Being a coach, mentor and a role model to age groups ranging from U8 to U12, Filip is aware of the importance to have a holistic approach on future athletes in the early development process.

As a retired professional, who has had a fair share of success on and off the pitch, Filip continues to cultivate his best intentions when it comes to being a part of youth development.

## COMMERCE

Being raised in a family of entrepreneurs, Filip was led to invest his earnings wisely setting up for a comfortable retirement, allowing himself to evolve in areas he considers relevant.

After the €2.5M transfer from *FK Austria Vienna* to *Glasgow Rangers*, Filip and his increasing popularity attracted a number of sponsors including NIKE & BMW MINI, with whom he remains in a successful commercial relationship till the present.

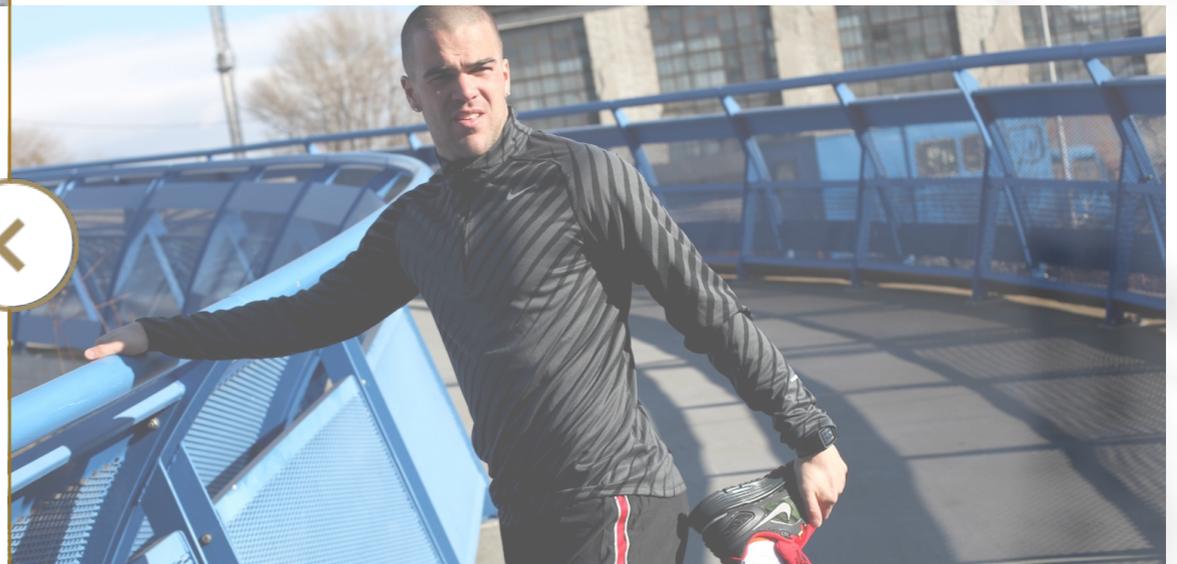

## DISCIPLINE

For some it is an obstacle. For Filip, discipline is a powerful tool implemented in his daily routines to reach targets and deadlines.

Leading an organic and equally balanced lifestyle with yoga and meditation being his energy sources, it has resulted in zero career injuries and zero off the field controversies.

Before being a professional, Filip considers himself an aware human being with a healthy value system open for upcoming challenges in life, accepting all shapes and forms of reality.

## DIVERSITY

Fluent in French, English, German and Czech, Filip understands, the international experience while being a professional athlete, stands out as the most valuable asset, expanding his opportunities in social and business networking in the current retirement period.

With the UFA C license Filip has discovered passion for coaching and mentoring young talent and he continues to develop all aspects of talent management. With the experience of mentoring multiple age groups he feels ready to take on further challenges with the same approach as to his professional career.
